Correction: Distribution of eukaryotic environmental DNA in global subseafloor sediments

Tatsuhiko Hoshino1,2* and Fumio Inagaki2,3

After publication of this article (Hoshino and Inagaki 2024), it was brought to our attention that one sentence in the Abstract section need to be corrected.

The Incorrect sentence is:
The eDNA was well conserved in anoxic sediments than in anoxic sediments, with PCR success rates of 18% and 48%, respectively.

The correct sentence is:
The eDNA was well conserved in anoxic sediments than in oxic sediments, with PCR success rates of 48% and 18%, respectively.

The original publication has been corrected.
